- P** Parking
- Restrooms
- Swampland

# NYC Envirothon Clarifications

The advisors/teachers may not assist the teams **during the competition** but are responsible for team conduct throughout the day.

# NYC Envirothon Clarifications

## Each station is 30 minutes long.

- You **may not** advance to the next station until you hear the fog horn. You have 5 minutes to get to each station, and if your team takes more time, it is cut off of your own time at the station. You may not stay at the stations longer than the allotted time period and you may not go back to the station once you completed the test.
- When you have completed the station, you must hand in your scantron sheet to the station master at that station. **You may not take it with you.** If the stationmaster does not have it, it will not be counted towards your score.
- The Oral presentation will be 10 minutes in length and 5 minutes for questions. The remaining time of 15 minutes before or after the OP will be a resting period for the team. They must stay in the OP area, but not in the testing room with the presenting teams.

# NYC Envirothon Clarifications

## Be sure to dress properly.

- Check the weather forecast the day before the event. The event will not be cancelled, so be prepared for rain, snow, sun, etc. If there is going to be rain, bring some sort of rain protection to the event. Be sure to wear layers because you will be outside all day, and it may be windy and/or cold.
- Wear proper foot attire and something you don't mind getting dirty. If it rains, the park will be muddy and wet. Also, don't wear dress shoes, heels, or shoes that are not comfortable and that you cannot walk easily in.
